Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 07 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry and fine for many. Some rain for Scotland.

Today:
Cloud and rain spreading eastwards and southwards across parts of Scotland. Dry elsewhere with variable amounts of cloud and some sunny spells. Feeling rather cold after a frosty start in places.

Tonight:
Cloudy in the north with rain across Scotland moving into parts of Northern Ireland and northern England. Dry further south with cloud breaking to allow a frost in places.

Monday:
Mostly cloudy with a little rain across Scotland, Northern Ireland, northern and eastern England. Dry with sunny spells in the south after another frosty start for some.

Outlook for Tuesday to Thursday:
Starting settled with light winds and some patchy rain for western areas. Turning very unsettled through Wednesday with heavy rain and strong to gale force winds. Blustery showers later Thursday.
